

MERE

THE BOOK OF BEAUTIFUL BATHROOMS

WELCOME TO THE LATEST MERE BROCHURE

In January we're celebrating 25 years of designing, manufacturing and sourcing amazing bathroom products for our customers.

We continue to work hard to deliver what our customers ask for and have come to expect - high quality bathrooms products that are value for money, in stock and available for immediate delivery. We also offer first rate technical back-up and the finest after-sales support to make sure you get pleasure out of your bathroom for years to come.

We're still family owned and as passionate as ever about what we do. We work with our partners to support you, to understand everything about your project, from the smallest details to your timescales and budget.

Here's to the next 25 years!

tissino

Tissino

Tissino is an Italian inspired brand of stylish and contemporary bathroom products. Founded from the desire to join attention to detail with passion for the creative process, Tissino takes inspiration from the Italian love of water and design to produce stunning collections that create bathrooms to a standard never imagined before.

Reef

As the familiar name in wall, ceiling and floor coverings, Reef's complete range of products are easy to fit, easy to maintain and fully waterproof to stay looking good for longer.

LET US HELP YOU CREATE YOUR OWN HAVEN

The bathroom is the most important room in the house. It's where we start and finish the day, a haven to unwind and wash away life's little stresses and one of the most valuable rooms in the house.

3 Reasons to refurbish your bathroom

step

Increased Property Value

Refurbishing your bathroom can add up to £5,000 (and more) on to the value of your home. If you are selling your property a tidy, clean and functional bathroom is very appealing to potential buyers and has a significant influence on the buying decision. If selling your property is something for the future then you can enjoy the benefits of a refurbished bathroom in the meantime.

step

Improved Functionality

Manufacturers across all industries are constantly innovating and producing better product designs to enhance functionality and reliability. So it's important to consider who else uses the bathroom and how they prefer to use it. Other factors to take into consideration include family size, accessibility and best use of space, is it easy to keep clean and is it safe? There are also products that are designed to save water and energy costs such as adjustable cisterns to dual fuel radiators.

step

Extra Luxury

Who would say no to a bit of luxury? Refurbishing your bathroom gives you the opportunity to design a room that you enjoy using and helps to create that enjoyable experience for your guests. People use the bathroom as an escape to unwind and relax. Details like leaking taps and yellowed bath panels or simply colours that you don't like are all things that disturb the blissful experience so why not remodel your bathroom and create your own haven.

WHAT'S NEW

At Mere we love to develop new products and we are very excited about the latest releases included in this brochure.

This versatile and practical collection of new product, feature designs and finishes that are relevant to today's demands. Enjoy browsing our brochure and if you have any questions we are just a phone call away.

PERMA BIANCO

No more unsightly bath panels!

Perma Bianco bath panels are manufactured using a pliant acrylic and is an innovation that overcomes unsightly discolouration in bath panels. The Tissino panels include a wooden core and a layer of resin reinforcement, this provides a highly robust, rigid bath panel that is very flat and will always look fantastic. The acrylic runs right through around the edges of the panel to allow for trimming if necessary.

A unique fixing system holds the panels tightly together in the corners to create a finish that is pleasing to the eye. Various sizes are available that will fit all Tissino baths.

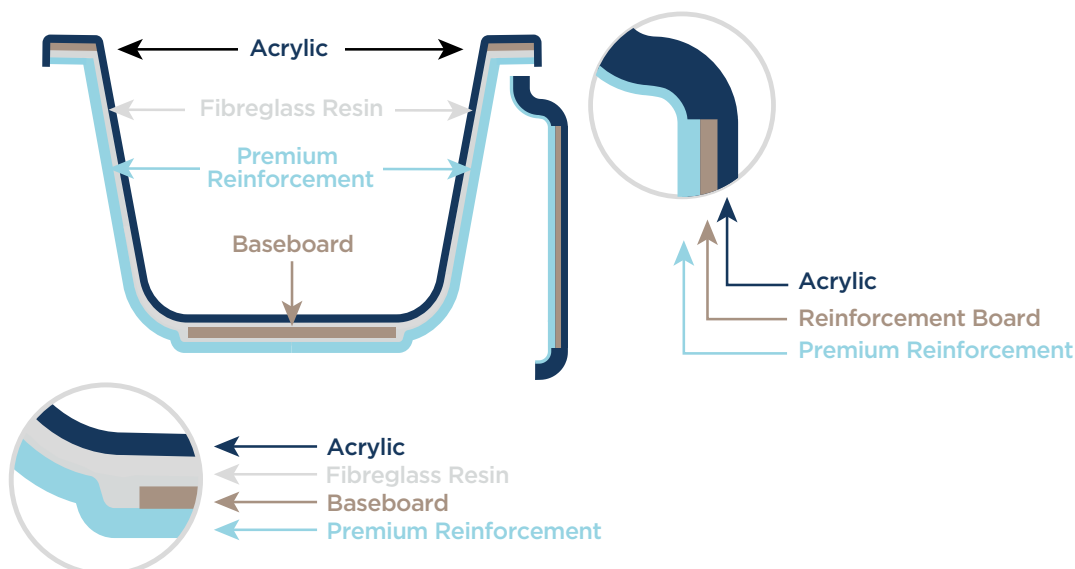

Tissino Premium Bath Panel

Premium Option:

Even stronger and warmer for longer

BATH STYLE GUIDE

TISSINO

Premium as
standard

Tissino baths and panels are manufactured to the highest standards and the premium version includes an extra layer of strengthening resin creating a rigid construction.

Single Ended Bath

A single ended bath has been the standard choice for inset baths for many years. Both the waste and taps are fitted at one end of the bath, this end of the bath is normally straight whilst the other end features a gentle slope designed to provide back and shoulder support.

Double Ended Bath

Both ends of a double ended bath feature a gentle slope whilst the tap and waste will be situated in the middle of the bath. This means that there is plenty of room for two people to bathe together. A double ended bath is also a great solution for someone who is tall and is fed up of catching their feet/toes on the taps at the other end. Double ended baths are available as inset and freestanding baths so we have plenty of choice.

'D' Shaped Bath

A 'D' shaped bath is a semi-freestanding bath with an open back which fits against the wall. Our 'D' shaped Angelo baths come pre-fitted with a waste and overflow.

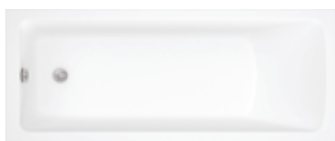

Freestanding Bath

Freestanding baths have seen a revival in the last few years and it is a trend that just keeps growing. Typically understated and completely functional, and specifically focused on ergonomic design that doesn't compromise on quality.

Shower Bath

Shower baths provide you with the best of both worlds when it comes to choosing between baths and showers. They have a larger width at one end so you can take a shower with comfort whilst providing a relaxing place to soak at the end of a long day.

LORENZO

Our Lorenzo collection of elegant baths brings a sense of effortless ease and comfort into the bathroom. Designed around simple square forms, and available in a range of different configurations to suit a variety of room designs, the Lorenzo baths represent the ultimate in indulgent bathing.

All baths in the collection are manufactured from high quality acrylic with a naturally warm-touch surface – so there's no need to fear dipping into the depths, even on the coldest mornings. If you like to add a little aromatic fragrance to the water, go ahead, as the easy clean surface is safe for bath salts and oils. It's slip resistant too for added confidence and peace of mind.

There are shower bath options available too, featuring extra space at one end for easy showering, and matching bath panels that ensure the stylish Lorenzo look is maintained down to the last detail. So whether you view your bath as a place to scrub down or to lie back and relax, you can be sure the Lorenzo collection has the product to match your room and lifestyle.

Customised Comfort

LONDRA

There are two differently sized baths in the Londra collection, both manufactured from premium grade acrylic with its characteristically warm-to-the-touch comfort and sculptural form.

The baths are double ended for flexibility, and have been designed to maximise the internal bathing space with slim rims and plenty of room. Not that the slimline features make for a lack of strength. These are sturdy baths designed for both function and comfort.

ANGELO

Few things in life are as luxurious as an indulgent soak, and this Angelo freestanding bath is the perfect place to sit back and relax in Italian-inspired style.

Designed to complement the rest of the Angelo collection, the bath's beautifully crafted yet restrained curved styling oozes elegance, with its high sides and smoothly rounded form enveloping and embracing the bather.

Manufactured from high quality acrylic with a high overflow position, the design features an integrated waste and support system. Once installed, it can be enjoyed in comfort and confidence for a long time to come.

ANGELO

It may be disarmingly simple in form and subtly elegant in conception, but the Angelo stone freestanding bath forms an effortlessly breathtaking centrepiece to any contemporary bathroom.

Expertly crafted from natural stone resin, the double ended bath offers the ultimate bathing experience in larger bathrooms where its freestanding design can be accommodated. With its exquisitely curved form, it offers superior luxury and comfort for all those who love to sit back and soak away the day's cares.

Featuring integrated waste and support systems, and backed by a ten-year guarantee, this bath is a masterpiece of style-conscious bathroom design.

HYDRO

Turn a simple bath into a luxury bathing experience with a hydrotherapy system.

WHAT IS HYDROTHERAPY?

The Mere range of hydrotherapy systems consist of two key elements...

WHIRLPOOL

Side jets that circulate water around the bath.

AIR SPA

Small outlets at the bath base blowing air into the water. Hydrotherapy systems have therapeutic benefits and lead to a sense of overall wellbeing. The motion and warmth of the water causes blood vessels to dilate, speeding up the flow of oxygen and the body's natural healing process of injured muscles.

Delivery & Warranty

Under normal circumstances your hydrotherapy system will be delivered within 7 to 10 working days. Hydrotherapy systems are guaranteed for 12 months from the date of purchase. Defective materials will be replaced or repaired free of charge except when there has been damage **caused by negligence, misuse or improper installation.**

BATH PANELS

All baths and panels feature Perma Bianco, creating a rigid construction that will not discolour over time.

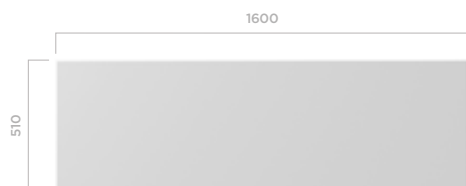

The above image illustrates how the 'L shape panel' is a one piece moulded panel, and when fitted, lies flush with the bath eliminating the corner joint that normally exists when using two panels. It's these small details that help to create that beautifully designed bathroom, a place of visual enjoyment as well as bathing pleasure.

TOWEL RAILS

Our range of high quality, beautifully engineered heated towel rails offer exceptional design, maximum performance and reliability.

The range includes the Savoy ladder rail, the curved Blenheim rail and the designer Hugo2 rail from Tissino with textured finish. A full range of colour matched valve and pipes are available with multiple heating mode options.

TYPES OF TOWEL RAIL

6 Helpful steps to choosing your towel rail

step

CHOOSING THE RIGHT COLOUR

The Mere towel rail range includes a wide selection of colours from gleaming chrome to the luxury textured Hugo2 finishes available in an array of five different shades.

step

CHOOSING THE RIGHT SIZE

To choose the best size towel rail for your bathroom, use our heat output calculator online, then check that the suggested towel rail fits the space available.

www.merebathrooms.co.uk/heat-output-calculator

step

CHOOSING THE RIGHT STYLE

Mere towel rails are available in three different styles, the Hugo2, the Savoy and the Blenheim. Each with their own unique design features that will help to make you bathroom a truly tranquil space.

step

SELECT THE HEATING METHOD

CENTRAL HEATING – VALVES REQUIRED

Most homes in the UK already have central heating. If such a system is in place, you can simply plumb your new towel rail into your existing central heating system. Tissino Hugo2 towel rails produce enough BTU to warm your towels and heat the bathroom the same way as a traditional radiator.

ELECTRIC RAIL – NO VALVES REQUIRED

For homes without central heating or for those looking to quickly add a heated towel rail to the room without the upheaval or cost of re-routing pipes, an electric towel rail can offer the perfect solution. They are very easy and quick to install by a qualified electrician and offer a cost-effective way of keeping towels and robes etc. warm and dry. Our towel rails can be converted into electric towel rails, we will fill the rail with a special heating fluid, install the appropriate heating element, seal and test.

DUAL FUEL – HEATING ELEMENT AND VALVES REQUIRED

A dual fuel towel rail is plumbed into your central heating system and features an electric heating element which is purchased separately to the towel rail. A dual fuel towel rail can be heated by the main heating system in the house, or when the heating system is not in operation it can be isolated and heated by the element. This gives you the luxury of heated towels all year round without having to use the heating system in summer periods. Tissino make this easy by supplying a set of dual fuel valves specifically designed for this installation scenario with wall or floor connections, these also must be purchased separately. See our 3 step guide to creating a dual fuel radiator on page 53.

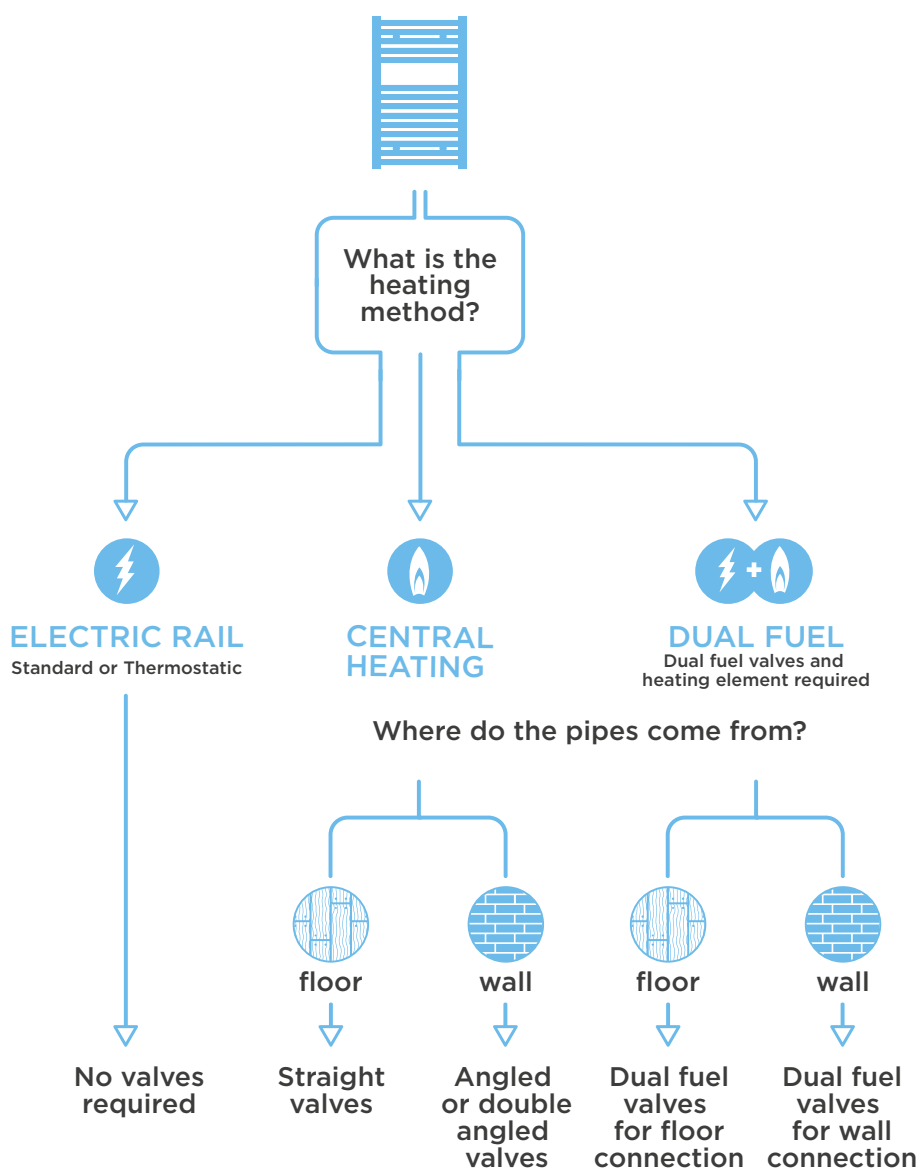

step

5

CHOOSING THE RIGHT RAIL VALVES

Choosing the correct valves for your radiator is essential but can be slightly confusing with so many options to choose from. Follow the table below to find out what valves you require for your radiator.

Which valves do I need?

step

6

ADD THE FINISHING TOUCH

Colour matched pipe and shrouds and towel hangers can be purchased to add that extra touch of class to your towel rail. Towel hangers can only be used with the Hugo2 towel rails. See page 52.

HUGO2

The Hugo2 collection combines engineering efficiency with breath-taking Italian-inspired design.

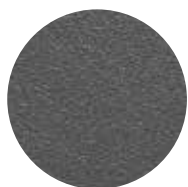

The exquisitely designed heated towel rails are available in ten different sizes and a range of understated colours, including lusso grey, mont blanc, anthracite, arabica and gleaming chrome. The combination of attention to detail and quality craftsmanship makes the Hugo2 collection the perfect heating solution for any design-conscious bathroom.

VALVES FOR A WALL OR
FLOOR CONNECTION**

step

CHOOSE THE ELEMENT

The recommended element size
is listed with each towel rail.
See page 43 - 51.

DUAL FUEL VALVES

A dual fuel towel rail is plumbed into your central heating system and features an electric heating element (purchased separately).

A dual fuel towel rail can be heated by the main heating system in the house, or when the heating system is not in operation it can be isolated and heated by the element. This gives you the luxury of heated towels all year round without having to use the heating system in summer periods.

WCs

Our Velino collection fuses freedom and elegance with the very best in cool, minimal design to create a range that brings real panache to the bathroom.

Consisting of two exquisitely curved rimless WC pans, the Velino collection transforms the items' essential form and function into objects of sculptural beauty. Select from either the standard pan or the short-projection option, and benefit from the enhanced sense of space that comes with a wall hung design.

These rimless pans also make for easier cleaning, reducing detergent consumption compared to standard WCs.

Standard Projection

WCs

Based on subtly expressed oval forms, the Tulio rimless wall hung pan and back-to-wall pan are disarmingly simple and yet sophisticated and elegant down to the last detail.

The wall hung option leaves the under-pan area clear of obstruction – an important consideration in smaller bathrooms where it helps to have more visible floor space. The back-to-wall pan is designed to the same high quality, but it extends down to the floor creating a more conventional profile.

Both Tulio products are completed with the addition of the slimline soft close seat – an accessory that shares the same smoothly rounded design theme as the pans themselves. Together, they help ensure that this essential item of bathroom furniture looks and performs as superbly as some of its more glamorous bathroom neighbours.

TULIO RIMLESS WALL HUNG PAN

The Tulio rimless wall hung pan design is easier to clean and uses less water to flush

SERENA

WC

The curved aesthetic encapsulated in the Tissino Serena collection, is precisely the type of design approach that helps establish a sense of harmony in the bathroom.

The Serena wall hung WC pan does away with extraneous elements and superfluous details, creating a smoothly sophisticated form that exudes Italian inspired style even as it refuses to command attention. It is a WC after all – an essential furniture item that need not announce its presence to the room.

The subtle understatement of the Serena collection's WC is echoed in the soft close seat designed to the same sleek specifications. Rounded edges and a gentle curve to the rear help add visual interest without breaking the coherence of the overall design. And because Tissino collections are always manufactured to the very highest standards down to the last detail, users can be confident that both the seat and the pan itself are built for many years of long term use.

Technical Information

Rigorously tested and very highly certified. The Rocco range from Tissino is essential for the contemporary bathroom.

Framed and concealed cisterns used with wall hung or back to wall toilets create a greater impression of space. Rocco cisterns are easy to fit, easy to maintain, quiet and highly efficient.

3 easy steps to create a minimalist, modern WC suite that is easy to maintain and clean.

Guaranteed cleaner glass for longer

GLASS PROTECTION

All our showers come with a protective coating that effectively cleans your shower for you. This will keep your shower enclosure looking like new, at no extra cost.

HOW DOES IT WORK?

A micro-thin invisible coating is applied to the glass as standard across our shower enclosures. This innovative technology creates a surface that water and grime are unable to stick to, creating a lasting mark-free finish.

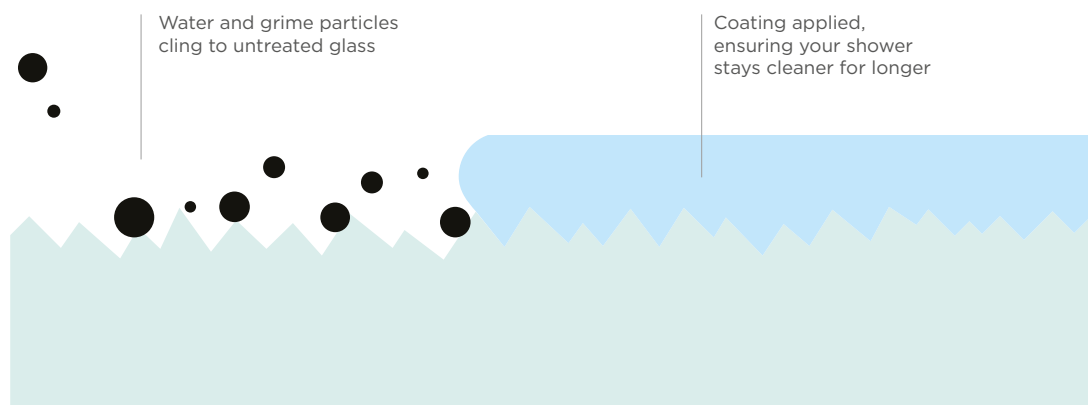

KEEPS CLEANER FOR LONGER

Over time, the glass panels in shower enclosures can become tarnished by a build up of limescale and soap residue from shower gels and shampoos. By preventing the adherence of these products, the protective coating keeps glass looking cleaner for longer.

WARRANTY

Our enclosures have been developed to be effective and durable, offering long lasting protection on every enclosure we supply. To give you added peace of mind, the protective coating on every glass panel is guaranteed for two years.

REPELS WATER AND GRIME PARTICLES

LUGANO

The Lugano collection from Tissino features exquisitely crafted shower doors and panels that help create a space in which you can make the most of your reverie. Designed to provide a minimalist, clean and clear enclosure, the frameless styling surrounds you in strong 8mm Brillo Vetro glass while creating a thrilling sense of lightness and transparency.

When you consider the care and craftsmanship that go into creating every Tissino bathroom collection, it's only right that the shower panels you choose should perfectly complement every other element within your special space. The Lugano collection ensures that whatever choices you make within your shower – from the spray head to the shower tray – everything can be seen to play its part.

A variety of hinged doors and side panels are available, all with minimalist profiling and concealed fixings. Chrome plated hinges are engineered to last while also adding a smartly designed visual touch. Items in the Lugano collection can be combined to create stunning corner cubicles or neat alcove-based shower areas – whatever works best within the dimensions of your bathroom.

LUGANO SERIES

- Minimalist wall profiling
- Concealed wall fixings

ARMANO EXPLAINED

300 HINGED RETURN PANEL

Great for smaller spaces to control water splash and can be folded away after use.

250 FIXED RETURN PANEL

Used to add that extra design feature and to prevent water from splashing outside the shower enclosure.

Includes dedicated glass clamp, foot & corner profile.

CORNER CONNECTING PROFILE

Use a corner connecting profile to attach two shower glass panels together at 90 degrees. Includes cover cap for premium finish.

BAR CLAMP

Use this neat component to attach 2 arms at right angles to each other.

CEILING SUPPORT ARM

Used to avoid obtrusive horizontal arms and create a spacious feel in the enclosure.

SUPPORT ARM

High polished aluminum support arms can be cut to length allowing flexible design and rigid support. Includes wall fixings.

GLASS CLAMP

A robust chrome coated brass clamp used to attach the support arms to glass panels.

KLAS

Four superb styles in a well thought out range of sizes has established Klas as a firm favourite with many designers and installers.

Easy to fit and offering generous levels of adjustment makes Klas an ideal replacement product in an older property, whilst the clear lines and simple functionality suits all installation types and lifestyles. Klas shower glass is 6mm thick and is supplied with Clearseal protective coating as standard.

GIORGIO2

Giorgio2 is a minimalist designed tray featuring a beautiful natural slate finish available in three luxury colours and a wide selection of sizes.

A chrome grate is supplied as standard, alternatively a colour matched grate can be purchased to add that extra touch of class.

- Beautiful natural slate finish
- Highly durable, scratch and slip resistant surface
- Solid colour throughout the entire non-porous gelcoat finish and resin core
- Includes waste valve and stainless steel grate
- Colour matched grates available
- Wide selection of sizes
- Edges can be trimmed up 100mm
- 10 year guarantee

Technical Information

GIORGIO LUX

There's a unique design feature built into the Giorgio Lux shower tray, a detail that ensures water flows away freely without the use of a visible grate. This stylish stone resin tray is designed with an integrated maxi-flow waste outlet, so as the water hits the surface, it is channelled away discreetly and efficiently.

It's just one more reason to love this exquisitely styled shower tray with its coolly understated slate finish. The luxurious material resists scratches and provides users with the perfect place to enjoy their shower – a sleek, slip-resistant surface that adds a touch of class to any shower enclosure.

Technical Information

GIORGIO WALL PANELS

The luxurious natural slate finish of the Giorgio wall panels adds a stylish focus to any bathroom, often used to create an inviting shower enclosure that is durable and easy to care for.

With two size options available, the wall panels are 10mm thick and feature solid colour throughout, so whether you choose contemporary black, pristine white or the cool, understated grey, you can be confident that your enclosure will always look its best.

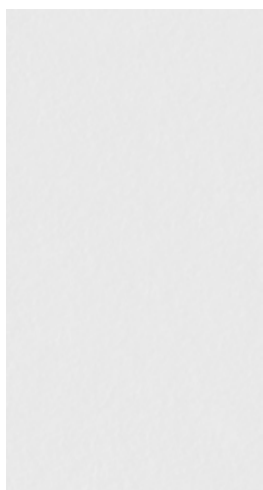

The wall panels are designed to perfectly complement the shower trays in Tissino's Giorgio collection, although the range of colours and sizes will work equally well with other bathroom style choices. Their presence is intended to be a long-lasting pleasure, with a ten-year guarantee to uphold the craftsmanship.

WALL PANELS

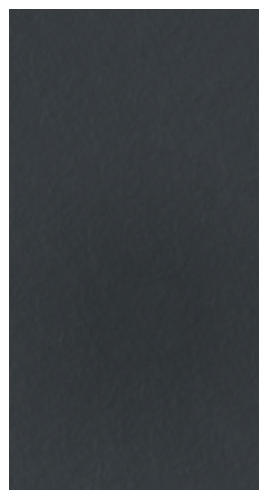

- Natural slate finish
- Polyester resin core with gelcoat cap
- 10mm thickness
- Solid colour throughout
- 10 year guarantee

WETROOMS

The perfect solution to all wetroom projects, the Dukkaboard range is totally moisture and rot proof.

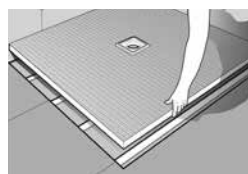

Dukkaboard wall & floor boards should be used in preference to plasterboard or chipboard due to its water and rot proof properties and gives the best possible backing for tiles, glass and stone. Screws should only be used to fix Dukkaboard with washers.

1
Cut out required section of flooring and fix battens to joists

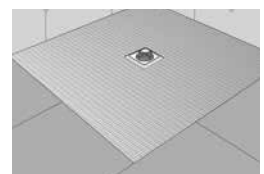

2
Install waste & screw ply to battens

3
Fix shower tray in place

4
Build up surrounding floor with Dukkaboard

5
Complete waterproof area ready for tiling

ALETTA

Consisting of wall hung basins and tall storage units, the Aletta products are disarmingly simple yet rich with understated detail. Chamfered front edges define the furniture's sleek lines, while exquisitely fashioned square handles add to the visual elegance.

Not that the Aletta range is purely about graceful good looks. As with all our furniture, practicality is paramount. The two-drawer basin units help keep bathroom essentials close at hand, while the storage units belie their slim form by opening up to reveal plenty of internal shelving.

Three subtle matt finishes lend the range an irresistible presence, and of course, every item is manufactured to the same high standards you always expect from Tissino.

Technical Information

LORETTO

It's extraordinary how simple, understated minimal design styles can create a sense of quiet celebration of everyday beauty. The Loretto collection of bathroom furniture from Tissino is the epitome of stripped-back, undemonstrative design, but at the same time its calm confidence lends even the most functional items a real presence.

The compact, wall hung basin units are available in a range of sizes, in either gleaming glossy white or a gorgeous soft grey shade. A single soft-close drawer provides plenty of space for handy bathroom storage while the sleek, handleless design maintains the overall purity of form.

PARINA

The Parina collection from Tissino brings a real sense of refinement and elegance to the bathroom, with everything from slim, high spout taps to concealed basin mixers and bath sets in a range of styles.

Thermostatic shower valves are also available, featuring exquisite round handles that are a pleasure to operate.

The Parina collection may exhibit the finest high quality minimalist design, but there's nothing minimal about the choices available throughout the range. Whatever your style choice and colour preference, the Parina collection makes it easy to make the smallest details count.

PACATO

If the essence of a bathroom is the water that flows through it, the tap is the ultimate source. Tissino's Pacato collection allows the humble tap to play a role deserving of its importance, bringing the finest Italian design that looks exquisite and performs like a dream.

The Pacato collection is designed with striking good looks in mind, with elegant chrome styling and a clever combination of crisp lines and soft curves.

BAVERA

10
Year
Guarantee

Designed around a smooth, cylindrical tap post, each Bavera mono tap features a soft square spout and a designer handle.

There are two tap styles available in the collection – a standard fitting in a choice of gleaming chrome or stylish matt black, or a high spout option with a taller, slender profile.

The Bavera range is inspired by the very best in Italian design and whatever option you choose it will add an extra touch of elegance.

BRASSWARE

BAVERA & SAVENA

The Savena collection from Tissino is a perfectly pure expression of this belief in the power of simple design.

Comprising of two sleek formed mono taps based on cylindrical design principles, the products are ideally suited to spaces in which both style and function work in harmony.

Select from either a standard size option or a taller, slender high spout tap. Either way, Savena products feature high quality components and premium materials, with a beautiful smooth chrome finish. This is high performance brassware that adds a touch of style and grace to any bathroom, creating spaces in which anyone will enjoy spending time.

Technical Information

Designed around a smooth square profile, the Elvo mono taps are available in two sizes to suit their surroundings and your personal taste.

Choose from either a conventional low rise fitting or a taller, slimmer, high spout option. Either way, the Elvo taps combine the very best in form and function, with the superbly engineered handles making it easy to regulate the flow of water.

ROSSINI

The shallow curves and crisp corners of Rossini brassware help to define this range of high quality taps and other accessories. Each item is designed to make a distinctive statement, with premium materials and a superb level of finish all delivering good looks and great performance.

The Rossini brassware range includes attractive mono taps in a range of sizes – each with smooth lever operation – along with mixer units for the bath, with or without a shower fitting. A four-piece bath set adds a slim shower handset to the selection, and push-action waste units give users full fingertip control.

Conceived with both form and function in mind, the Rossini brassware range ensures that bathrooms work well right down to the last detail.

CASCATA

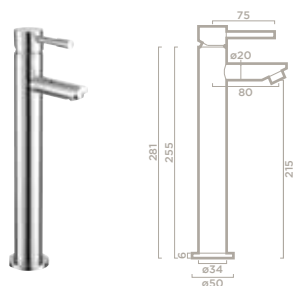

The Cascata range of brassware is designed around a series of elegant cylinders, all smooth to the touch and irresistible to use. Manufactured from premium materials and finished in high quality chrome, each item ensures that the bathroom performs as good as it looks.

The range includes two beautiful basin mono taps – one in a standard size, and a tall design for installation where additional height is required.

Cascata mixer bath fillers are also available, either with or without a shower fitting. The range is completed by gently curved push-action waste units with smooth, easily-controlled operation.

For an elegant design that's a little out of the ordinary, the Novo range of brassware is the perfect choice. Crafted to create a real sense of presence, the range combines smooth surfaces and clean angles, along with distinctive profiles that command attention.

A stylish basin mono tap offers the very best in contemporary design, with a large easy-lift lever for smooth operation and a wide open spout that creates an attractive waterfall effect.

Similarly, the Novo bath filler also features the attractive open spout, and with two columns and two levers in the single unit, it's easy to keep control of water flow and temperature as required.

ALPEN

A beautiful bathroom is about far more than just the statement pieces – the fixtures and fittings command attention. It's also about the small details and extra features that make sure the room works perfectly and delivers years of fuss-free pleasure.

The Alpen brassware range is full of extras and accessories that help add the finishing touch to any beautifully designed bathroom – whatever its size. From smoothly swiveling towel rails to robe hooks and even a shower wiper, the Alpen range has got it all.

Of course, just because the items are small this doesn't mean they don't deserve to be designed with as much care and attention as the larger items in the room. Manufactured from premium materials and designed with the utmost care, the Alpen range helps any bathroom hit the heights.

The Mario collection from Tissino combines all the elements required to create the ultimate in luxurious showering, from subtle, sculptural shower controls to exposed thermostatic mixers and stunning, high performance shower heads in a range of styles. Even the most functional elements, such as handset holders and outlets, have been created to complement the rest of your design-conscious bathroom.

Whether your shower is over your bath, or located in its own showpiece cubicle or alcove, the Mario collection includes superbly designed and manufactured parts that ensure the aesthetic effect is never lost. Shower arms can be ceiling or wall mounted, while the heads themselves are available in sumptuously styled round or square options. Slide-rail mounted heads add further flexibility, allowing you to create the perfect showering set-up for your home.

Rest assured, Tissino quality runs deep through the collection, with concealed fixing brackets also available, ensuring your shower always performs just as superbly as it looks.

MIRRORS & LIGHTING

We have the perfect selection of mirrors and mirror cabinets available in a range of sizes.

From the ever popular Lustre mirror cabinet to the cool modern Angelo mirror with Bluetooth connectivity, there is a mirror to suit every style and size of bathroom.

LORENZO MIRROR

LUSTRE

The Lustre collection from Tissino is a range of mirrored bathroom cabinets with a variety of integrated technological features. Slimline in profile, the cabinets include pre-fitted, adjustable glass shelves – perfect for all those bathroom bits and pieces you prefer to shut away out of sight.

Select from single door options with hinges to the left or right, or a double door cabinet offering twice the storage space. All Lustre products feature integrated LED lighting that helps ensure you always enjoy a well-lit view.

The built-in magnifier on the inside of the door is a valuable feature that helps you get in close when engaged in shaving or make-up application, while the gently heated demister pad resists condensation.

A shaver socket and soft close doors complete the high performance package.

MIRROR CABINETS

SINGLE DOOR LED MIRROR CABINET

with shaver socket & internal magnifier (left or right hinge)

Code	ex VAT	inc VAT
14-9011 Left hinge	£411	£493

- LED Light on side and bottom
- Pre-fitted adjustable glass shelves
- Infra-Red Sensor Switch
- Magnifier on inside of glass
- Mirror on inside of door
- Demister Pad
- Shaver Socket

Sensor switch should be 200mm away from any solid surface

Technical Information

ANGELO

The cool curves and refined lines of the Angelo collection from Tissino are designed to give bathrooms a beautifully streamlined, luxurious look.

A range of mirrors with integrated lighting – or even built-in Bluetooth speakers – completes the striking Angelo look in reflective fashion.

Technical Information

SPLENDORE

A mirror may appear to be one of the simplest items in the bathroom, but a Tissino mirror is an object of beauty, a smoothly functioning dream and a technological innovation at one and the same time. Our Splendore collection consists of high quality illuminated mirrors that make it a pleasure to reflect on your surroundings.

At the heart of each Splendore mirror is a sheet of high quality glass designed to deliver crystal clear reflections without distortion or defects. Integrated slimline LED lighting strips round the edge of the mirror throw light onto the face to improve the reflective performance, assisting with intricate shaving or make-up routines.

Conventional mirrors can suffer from fogging of the glass, the Splendore collection offers a technological solution to this age old problem. All models feature a heat pad situated behind the glass that helps guard against the formation of condensation – a modern-day remedy that helps maintain the mirror's high performance under all kinds of conditions.

FLOORING

InterGrip is a waterproof, interlocking vinyl floating floor system that can be installed in an entire room quickly and easily. The unique InterGrip technology halves the cost of laying convectional luxury vinyl tile and plank products and reduces installation time by up to 70%.

InterGrip can be laid over an existing floor, requires no adhesive and very little or no sub-floor preparation, providing the floor is level.

InterGrip consists of two core layers with an innovative overlapping glue strip assembly. The surface consists of an additional 0.3mm hard-wearing wear layer making it the perfect solution for all domestic and light commercial water resistant flooring.

- No glue required
- Easy to cut & fit
- Water resistant
- Hard-wearing ALX surface
- No damp proof membrane required
- Absorbs sound

SHOWER WALL PANELS

As the familiar name in waterproof wall & ceiling coverings, Reef's range of styles and effects can be used to enhance any bathroom.

Attractive, robust tongue & groove PVC panels are easy to install and can be fitted onto battens or fixed straight to the original wall and is possibly the quickest and simplest way of giving your room a make-over. Virtually maintenance free, Reef is regularly used within shower enclosures, and a complete range of trims and profiles are available to allow for full room installations of any shape and size.

- Water resistant
- Easy installation
- Hygienic, easy clean surface
- Class 1 fire rated
- 10.5mm thickness
- No grout to discolour

OUR PARTNERS

Co-ordinating the different elements of your project takes time and effort.

Our partner showrooms can make that process a lot easier and ensure you choose a bathroom that works with all the other materials, colours, textures and patterns in your scheme.

When visiting a showroom, remember to take along the following, which will help match the right bathroom to your space.

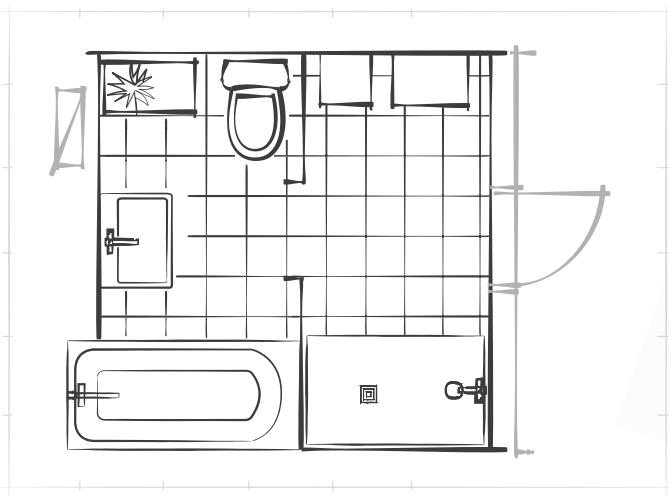

Dimensions of the room(s)

Photos and/or plan of the space

Paint samples
