Our Origins

The Lewis family founded Tissino in order to design and manufacture the most beautiful and innovative bathroom products for customers and projects across the globe. Our journey has seen us grow from a small company trading in a cluster of barns in the Cheshire countryside to a widely recognised brand focused on delivering premium products and exceptional service.

Italian design is our passion and at the heart of everything we do, in fact the Tissino brand is derived from The Tissino River, a small watercourse that runs through the magnificent mountainous valleys of eastern Umbria in Italy.

Our team have been travelling across Europe for the last twenty years, sourcing the highest quality materials and working with renowned designers.

Tissino is still family owned, still passionate and still dedicated to providing luxurious and tranquil bathrooms.

1	Furniture Collections	Wall-hung and floor mounted bathroom storage solutions	8
2	Sanitaryware Collections	WC's, wash basins and concealed flushing systems	32
3	Brassware Collections	Basin and wall mounted basin fillers, bath fillers and accessories	50

5	Showering Collections	Hinged doors, walk-in shower glass panels, support systems and shower trays	106
6	Showering Brassware Collections	Shower valves, shower heads, slide rails and accessories	132
7	Mirrors / Accessories Collections	Illuminated mirrors, mirror cabinets and accessories	156
8	Heating Collections	Heated towel rails and accessories	172

Collections inspired by our passion for Italian design and flair

Over the years we have developed a culture of excellence and continuous improvement in bathroom innovation. We are very well aware of current trends **and our product design reflects this.** Each product is created to be perfectly compatible with the Italian and wider European bathrooms that are on the drawing board today, for installation tomorrow.

Alongside this we build into our products a longevity born of meticulous design procedures, rigorous performance and strength testing and refined production processes. We go to great lengths to source the finest raw materials, some of which are on our doorstep, others of which are located further afield in Europe and wider still.

We are very proud of our product range and the accumulation of certification we have secured. Tissino produces only the highest quality products that are beautifully designed, easy to install and engineered to last.

tissino Contracts

Tissino have a dedicated contracts team to support the property developer, architect, interior designer and contractor with new build and refurbishment projects. The Tissino contracts team works closely with the project manager right from the outset with consultation and specification advice, through to room design, stock holding, site delivery and installation advice.

"Tissino continue to be our supplier of choice, with solid customer care, along with products that are stylish and the latest trends."

Darius Ziatabari
Equinox Living

"I have used Tissino products for a wide variety of projects. The team are always a pleasure to deal with, providing amazing service from start to finish. I would definitely recommend them to anyone looking for high quality, design led products."

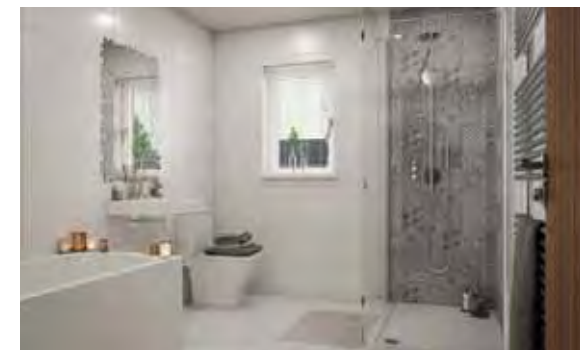

Steve McNulty
CHS Wirral Ltd

Copper Beeches *Killay, Swansea*

Tissino are delighted have been specified for the Copper Beeches project which is a luxury development of nine beautifully designed family homes set in the friendly neighbourhood of Killay, a short distance from Swansea city centre. The development offers five different house types all of which have been designed to the highest specification. Each of the house types will feature a range of Tissino products including Giorgio2 shower trays, Hugo2 towel rails, Armano shower glass, Catina furniture, Lugano shower enclosures, Londra baths, Angelo sanitaryware and Bavera brassware.

See more projects at tissino.co.uk/news/casestudy

Library House *Frodsham, Cheshire*

Tissino were delighted to be selected to supply bathrooms to the Library House project in Frodsham, Cheshire. The building was originally constructed in 1837 and used as a chapel for 100 years before being converted to a library and more latterly partly used as a doctors surgery. The scheme involves the conversion of the main building into apartments and development of a car park. The buildings history will be retained in the design and once complete, will emulate a modern interpretation of its original state.

Bathroom products supplied include Lorenzo baths, Angelo sanitaryware, Catina furniture, Splendore mirrors, Tenza brassware, Rocco cisterns, Hugo2 towel rails, Mario brassware and Armano showers.

See more projects at tissino.co.uk/news/casestudy

Fabrick *Stockport*

Fabrick is a stunning new development in the heart of Cheadle Hulme, Stockport comprising 184 one and two bedroom apartments.

The apartments have been designed with first-time buyers and young professionals in mind, implementing an innovative and lifestyle-led approach to layout that makes the most of every inch of space to offer some of the best-value living in town.

All apartments include Tissino furniture, sanitaryware, brassware, baths, mirrors and showers.

See more projects at tissino.co.uk/news/casestudy

Royal Porcelain Works *Worcester*

The Royal Porcelain Works was established in 1788 by Dr John Wall who was a highly talented artist and craftsman and was soon recognised as a ceramic manufacturer of distinction and one of the earliest in Britain. The multi million pound redevelopment of this historic site, has seen it transform into a use development on the site of the old factory including an arts and entertainment venue, events venue, coffee shop, bar, gin distillery and residential dwellings incorporating the retained Severn Street façade.

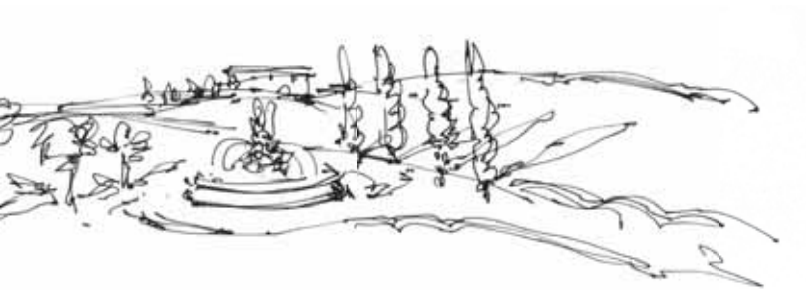

Tissino were privileged to supply full bathroom suites to this prestigious development including sanitaryware, brassware, furniture, showers, mirrors and baths.

Wall Hung Furniture
[See pages 10-17](#)

Aletta Series

Italian style. Unmistakable.

Consisting of wall hung basins and tall storage units, the Aletta products are disarmingly simple yet rich with understated detail. Chamfered front edges define the furniture's sleek lines, while exquisitely fashioned square handles add to the visual elegance.

Not that the Aletta range is purely about graceful good looks. As with all our furniture, practicality is paramount. The two-drawer basin units help keep bathroom essentials close at hand, while the storage units belie their slim form by opening up to reveal plenty of internal shelving.

Three subtle matt finishes lend the range an irresistible presence, and of course, every item is manufactured to the same high standards you always expect from Tissino.

// The Aletta Series explores the world of sleek simplicity. We wanted to create a range of practical, stylish furniture that exudes quality and **understated refinement**. A range that feels personal, tactile and functional. A range that excites the senses and enhances every environment.

The Aletta Series combines a contemporary geometric form with clean, crafted lines, resulting in a sophisticated design aesthetic.

A premium range of bathroom furniture with notable originality, created with a timeless purity and quality.

The Aletta bathroom series reflects the unique design hallmarks of our renowned Italian-inspired philosophy.

Catina Series

The Catina wall hung basin units are available in four different sizes to suit a variety of bathrooms. All size options feature two spacious drawers and a sleek, slim contemporary-styled ceramic basin. The soft-close drawers are designed without handles, so the units' clean lines are maintained without interruption. The handleless styling gives the units an attractive, modern look, and also makes every item in the collection extremely easy to clean.

The same handleless design and high quality gloss finish - in either dark graphite or bright white - give the Catina tall storage units a smart, contemporary look, perfectly complementing the basin units. Combining two soft-close drawers and internal shelving, the units help keep even busy family bathrooms clear of unsightly clutter. Everyday essentials are quickly hidden away, while the Catina units keep things looking cool, stylish and serene.

// High quality minimalist design involves creating understated furniture that doesn't shout for attention, but that brings a quiet **confidence to rooms that simply work beautifully**. Our Catina collection is a case in point, featuring gleaming, clean-cut basin units and tall storage units that play their part without fuss or clamour.

All products in the Catina collection **benefit from the highest manufacturing standards and a ten-year guarantee.**

When it comes to creating our exceptional minimalist furniture, the one thing that's never minimal is the quality.

Parina Series

The Parina collection brings a real sense of refinement and elegance to the bathroom, with everything from slim, high spout taps to concealed basin mixers and bath sets in a range of styles. Thermostatic shower valves are also available, featuring exquisite round handles that are a pleasure to operate.

In addition to the pristine sculptural styling you always expect from Tissino, the Parina collection offers a choice of surface finishes and colours, allowing for the fullest expression of the designer's art. From gleaming chrome through to steel, matt black, rose gold and more, the collection adds variety and interest to the bathroom, even in the most functional of areas.

// Grand gestures are made up of small details, and a luxurious, welcoming bathroom is the sum of the design decisions made throughout the space. Our Parina collection is designed to ensure that every element works harmoniously across the whole, whether that's with an elegant, beautifully proportioned basin tap or a seductively smooth push-operated waste fitting.

The Parina Series may exhibit the **finest qualities of high quality** minimalist design, but there's nothing minimal about the choices available throughout the range.

Whatever your style choice and colour preference, the Parina collection makes it easy to make the smallest details count.

Perma Bianco

Bath panels that stay white

Our innovative bath panels feature advanced technology that creates a strong, rigid construction with a beautiful finish that won't discolour over time, even if exposed to sunlight.

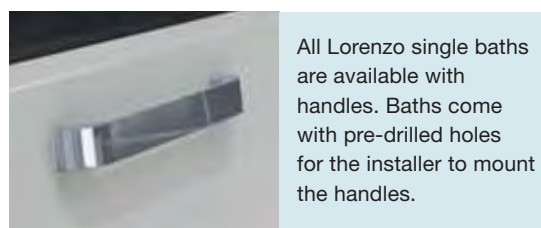

The pliant qualities of heated acrylic sheet remove many design barriers allowing us to create beautiful products for contemporary architecture.

Most bath panels available on the market today will discolour when exposed to sunlight. Perma Bianco is an innovation that overcomes this, providing a highly robust, rigid bath panel that is very flat, will always remain white and will always look fantastic. A unique fixing system holds the panels tightly together in the corners.

A wide selection of sizes are available made to fit all Tissino baths. No more unsightly bath panels!

Premium bath panel

All Lorenzo single baths are available with handles. Baths come with pre-drilled holes for the installer to mount the handles.

Perma Bianco Highlights

Premium as standard

Highly robust construction

Very easy to maintain

Suitable for all acrylic baths

Will not discolour over time - permanently white

Baths and panels guaranteed for 10 years

Easy to install

Precision fit edges

Extremely flat and rigid panels

Premium bath panels include encapsulated wood, leaving a margin of acrylic around the edges to allow for trimming if necessary.

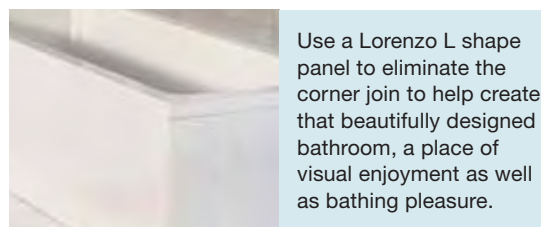

Londra Series
Double Ended Baths
[See pages 90-91](#)

Lorenzo

The Lorenzo L shape bath panel helps ensure that this design quality is never compromised, as it eliminates the corner join that normally results when two bath panels meet.

This neater, smoother finish is part and parcel of a beautifully designed bathroom, a place of visual enjoyment as well as bathing pleasure.

The panel is manufactured from high quality acrylic with additional resin reinforcement for stability and rigidity. The exceptional Perma Bianco finish is easy to clean and care for, and it won't discolour over time, even if exposed to sunlight.

Use a Lorenzo L shape panel to eliminate the corner join to help create that beautifully designed bathroom, a place of visual enjoyment as well as bathing pleasure.

Angelo Series Freestanding

Angelo Series Stone Freestanding

It may be disarmingly simple in form and subtly elegant in conception, but the Angelo stone freestanding bath forms an effortlessly breathtaking centrepiece to any contemporary bathroom.

Expertly crafted from natural stone resin, the double ended bath offers the ultimate bathing experience in larger bathrooms where its freestanding design can be accommodated. With its exquisitely curved form enveloping the bather, it offers superior luxury and comfort for all those who love to sit back and soak away the day's cares.

Bath Screens

The perfect complement to our stunning range of Tissino baths.

The Milano Series of shower screens are available in 6mm or 8mm glass thickness. All bath screens are protected with our unique Brillo Vetro coating to ensure resistance against soap deposits and easy cleaning.

All Milano Series bath screens are 1500mm high and the 6mm version features a rise and fall hinge allowing the seal to lift on and off the bath rim to prevent wear and ensure a tight seal.

"The Milano hinged bath screen we recently had, is one of the best screens I've fitted. Great product."

Peter, Bathroom Installer

Brillo Vetro is an additional process that our glass is subjected to, which enhances its technical performances and maintains its condition by making it easier to clean, resisting the build up of soap and water deposits. If cleaned regularly, the shower will stay looking like new for many years.

Bath Screen Highlights

6 or 8mm Brillo Vetro tempered glass

1500mm high

10 year guarantee

Lugano Series

Italian style. Unmistakable.

As the name suggests, the Lugano concealed hinge series is a comprehensive range of high quality frameless shower doors that bring a sense of natural beauty and style to any bathroom.

The generous height of the Brillo Vetro coated glass, minimalist profiles and designer hinges and handles add a touch of elegance and understated sophistication to the showering experience.

Brillo Vetro is an additional process that our glass is subjected to, which enhances its technical performances and maintains its condition by making it easier to clean, resisting the build up of soap and water deposits. If cleaned regularly, the shower will stay looking like new for many years.

// The Lugano collection of exquisitely crafted shower doors and panels helps create the space in which you can make the most of your reverie. Designed to provide a minimalist, clean and clear enclosure, the frameless styling surrounds you in strong 8mm Brillo Vetro glass while creating a thrilling sense of lightness and transparency.

Lugano Highlights

8mm Glass - Brillo Vetro tempered glass

2000mm in height

Minimalist wall profiling

Reversible left hand or right hand

Concealed wall fixings

Chrome plated metal designer hinges

Suitable for corner / alcove installations

EN14428 compliant

Armano Series

The Armano Series is a unique system which allows you to create a wide range of walk-in shower enclosures in a huge range of sizes.

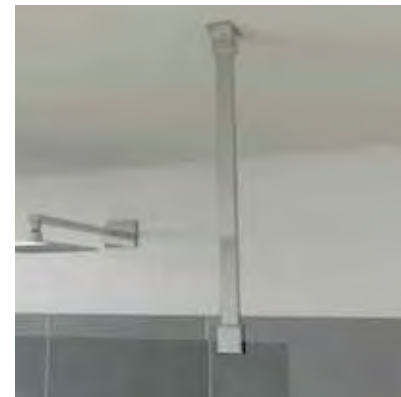

High quality components can be selected to suit any situation whether you are having a wet floor or tray installation, or whether the enclosure is going in a corner or the middle of a wall.

All Armano Series panels are 8mm toughened glass and benefit from our Brillo Vetro coating as standard.

Brillo Vetro is an additional process that our glass is subjected to, which enhances its technical performances and maintains its condition by making it easier to clean, resisting the build up of soap and water deposits. If cleaned regularly, the shower will stay looking like new for many years.

// A refreshing shower is one of life's true pleasures - and because a good shower can linger on or be **over in a flash, it easily slots into** the daily routine, even when there's little time to spare. Our Armano series of products is a collection of high quality Tissino components that allow you to create the perfect shower for your room and lifestyle. Large and luxurious or small enough to fit a tight gap, the choice is yours.

Armano Highlights

8mm Brillo Vetro tempered glass

2000mm high

10 year guarantee, can be increased to lifetime if purchase registered

Chrome plated solid brass clamps

Armano Series

Armano unique trays are just 25mm (1 inch) high for very easy access. Can be installed onto supported joists with floor boards and floor coverings.

A specially designed fast-flow waste unit is supplied with the trays to ensure the water drains away at 30 litres per minute.

Armano Highlights

25mm height

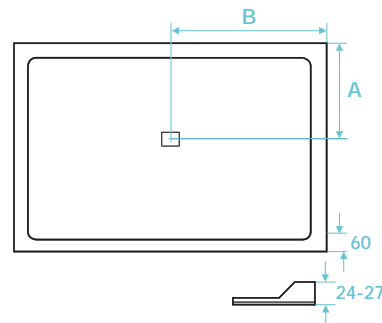

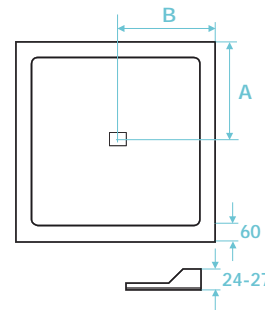

Durable stone resin construction

Central waste position

High volume drain included

* Shower tray availability:

- Shower trays are available for immediate delivery.
- Shower trays are subject to lead time of 4 weeks.

Giorgio Series

The new updated Giorgio range of shower trays consists of two designs Giorgio2 and Giorgio Lux. Both ranges feature a beautiful natural slate finish available in three sumptuous colours. The range is complemented by Giorgio Wall Boards that are fitted into the shower area and feature the same colours and textures of the trays creating a luxurious finish in your bathroom.

Giorgio2 is a minimalist design shower tray with a chrome grate supplied as standard. Alternatively a colour matched grate is available to add that extra touch of class.

Giorgio Lux shower trays are state-of-the-art design with its sloping geometry and unique modern maxi-flow waste.

Giorgio Wall Boards feature a slate effect texture meaning you can create a modern chic slate effect wall in your shower area. Manufactured from a non-porous gelcoat cap with resin core.

Mario Series

State-of-the-art

The Mario Series combines minimalist styling with state-of-the-art showering design and technology.

The Mario Series of showering systems and shower valves provides everything from classic over-bath showering to sophisticated drenching rain showers.

Mario Series shower valve bodies are moulded from a single piece of brass for added peace of mind and an enhanced experience.

Quality Assured

All Mario Series brassware products are manufactured to the highest quality standards

// Mario Series combines all the elements required to create the ultimate in luxurious showering, from subtle, sculptural shower controls to exposed thermostatic mixers and stunning, high performance shower heads in a range of styles. Even the most functional elements, such as handset holders and outlets, have been created to complement the rest of your design-conscious bathroom.

Mario Series Highlights

Solid brass (Grade A, H59)

Single piece moulded body

10 year guarantee

Anti-scald - factory set at 38°

Ceramic disc operation for longevity

Modern yet timeless design

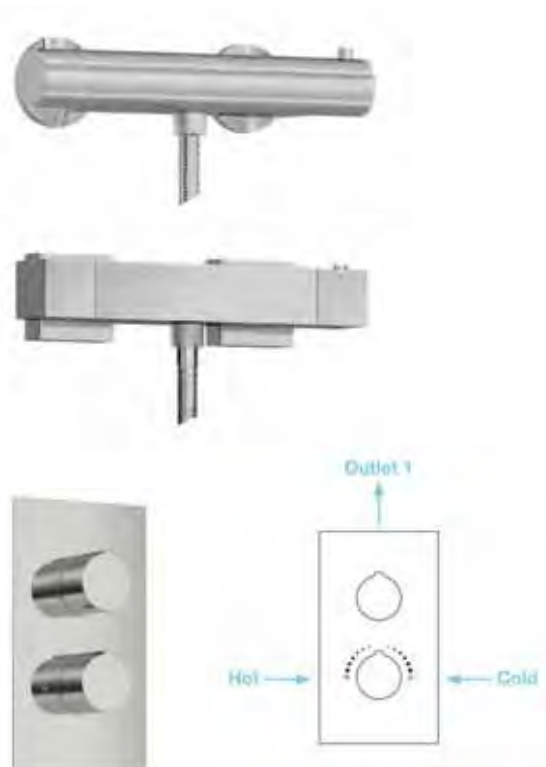

Valves

Page 138

Exposed and concealed, round and square - all solid brass.

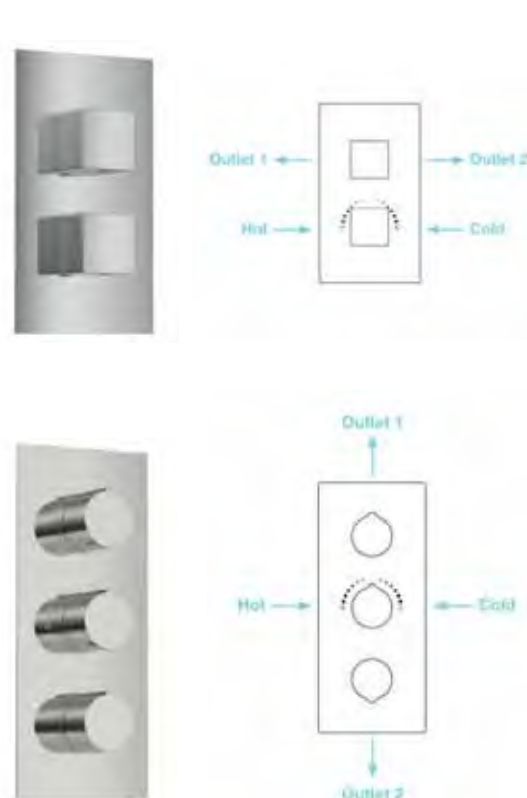

1 Outlet

Page 139

Solid brass concealed valves that can be used for 2 shower outlets, or shower and bath filler.

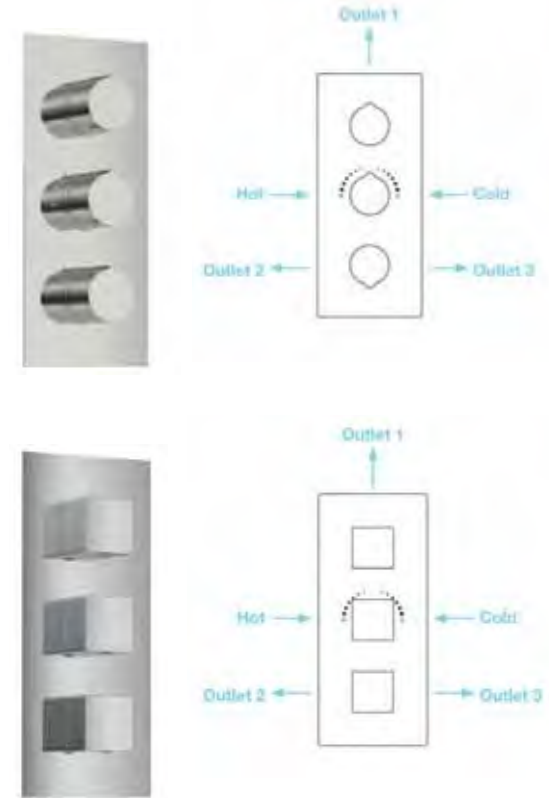

2 Outlets

Page 140

Triple handle valves with 3 outlets can run 2 outlets at the same time. For example a rain shower head and a slide rail kit can be running simultaneously and the third outlet a bath filler can be used when necessary.

Mario shower valve bodies are moulded from a single piece of solid brass for an enhanced experience and added peace of mind. This comprehensive range can be built into a huge combination of showering systems and experiences.

State-of-the-art design and technology, top quality raw materials and meticulous attention to detail ensures this range can be specified and installed with confidence. Each unit is factory water tested and the range embraces everything from a simple over-bath shower to sophisticated drenching rain showers.

Modern yet timeless - stunningly simple designs combined with exquisite detailed finishing, means the Mario Series not only looks good but performs exceptionally. Concealed or exposed valves with provision for up to 3 different outlets, and a huge array of outlets to connect them to. The Mario concealed outlet slide rails feature a water inlet in the bottom mounting bracket. This means faster installation and a tidier finish.

Parina Series

Stepping into the shower may be part of everyday routine, but it is also a moment to savour. Refreshing and relaxing, the shower is a place to reflect on the day ahead - or the day just passed - and the slimline elegance of our Parina collection brassware creates the perfect showering environment.

// The Parina collection is all about sleek elegance and attention to detail, and with a wide range of shower brassware available - in a **variety of coloured finishes** from gleaming chrome through to luxurious matt black - it includes all the elements required to create showers that look beautiful and perform superbly. //

Whether the shower is a discreet space located in a handy alcove or an expansive centrepiece in a larger bathroom, the Parina collection brassware gives it a chic sense of style.

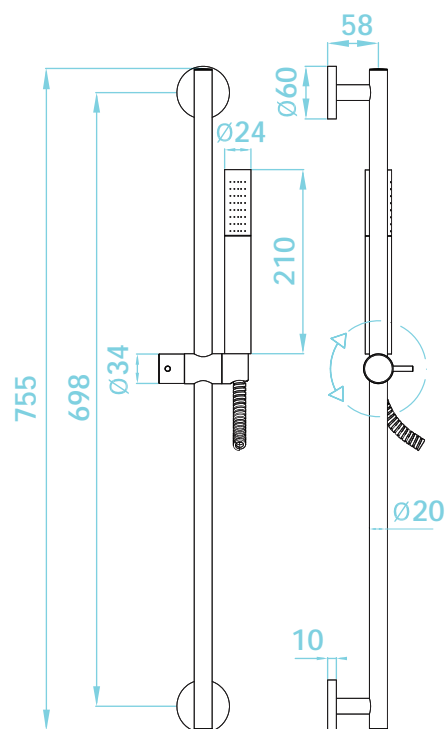

From slim handhelds to large rain shower heads, along with seductively curved shower valves and all the essential fittings, Parina brassware ensures that the shower remains a wonderfully welcoming space - at any time of day or night.

Lorenzo Series

Lustre Series

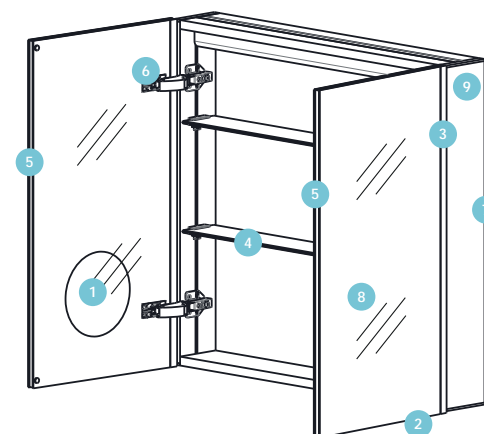

Lustre Series is a range of mirrored bathroom cabinets with a variety of integrated technological features. Slimline in profile, the cabinets include pre-fitted, adjustable glass shelves - perfect for all those bathroom bits and pieces you prefer to shut away out of sight.

Select from single door options with hinges to the left or right, or a double door cabinet offering twice the storage space. All Lustre products feature integrated LED lighting that helps ensure you always enjoy a well-lit view.

The built-in magnifier on the inside of the door is a valuable feature that helps you get in close when engaged in shaving or make-up application, while the accompanying demister pad means you can always wipe away condensation after a steaming shower or bath.

A shaver socket and soft close doors complete the high performance package.

// The art of bathroom design can be as varied as you want it to be, but even the most radical thinkers would probably concede that a mirror is a bathroom essential. Combine the mirror with a beautifully designed cabinet, and you enjoy **reflective beauty wrapped** round a functional storage solution. That's the essence of thoughtful, inspired design.

Lustre Series Highlights

- 1 Magnifier - x3 strength
- 2 Infra-red sensor switch
- 3 LED light
- 4 Pre-fitted adjustable glass shelves
- 5 Mirror on both sides of door
- 6 Soft close hinge
- 7 130mm depth
- 8 Demister pad
- 9 Shaver Socket

Hugo2 Series

The award winning choice

The entire Hugo2 range is now available in 5 stunning colourways and 3 different versions; standard hot water, electric and temperature regulating electric.

The Tissino Hugo2 range was awarded Highly Commended for Best Heating brand at the BKU awards

When creating the perfect bathroom, it is important that the furniture will fit your unique space and, when selecting towel rails, perform effectively.

This section contains ordering and technical information on our range of products.

To help you choose the best towel rail for your bathroom a simple heat output calculator is available online - scan the QR code below or visit tissino.co.uk/heat-output-calculator

Design

Designer finishes - excellent choice of 10 different sizes and 5 finishes all stocked for immediate delivery

Italian designer brand - chrome, textured and gloss finishes

Tidy, discreet bleed valve on the reverse of the rail and neat, sealed rail tops

Perform

Primary heat source, unrivalled heat output means Hugo2 can be specified with confidence

Tested to perform every Hugo2 rail is CE tested and complies with EN442 - 1, 2 & 3

Robust, colour matched metal brackets facilitate our confidence to offer a 10 year manufacturers guarantee

Inspire

A range of colour matched valves are available for the perfect finished result

Stunning design - 5 finishes perfectly complement modern sanitary fittings and décor

Quality designer accessories - towel hanger keeps towels off the rail for optimum performance

Hugo2 Series

Size

600 x 800

See pages 190-191 for dual fuel valves and towel rail heating elements.
Electric rails are made to order and non-returnable, the element is fitted to the right-hand side unless left-hand is requested.

Dual Fuel

A dual fuel towel rail can be heated by the main heating system in the house, or when the heating system is not in operation it can be isolated and heated by the element. This gives the user the luxury of heated towels all year round without having to use the heating system in summer periods.

Standard heating elements - when switched on, this element will operate to full heat output.

Temperature regulating elements - available in white or chrome, these elements allow total control of the towel rail temperature.

How to order a dual fuel radiator

Choose towel rail size and colour

Choose desired heating element design and appropriate wattage - see page 191

Order dual fuel valves for wall or floor plumbing connection - see table

Add the fitting pack for the finishing touch of class

Dual Fuel Valves including T-Piece
for wall plumbing connection

tissino Service

Prices and Ordering

All values in this brochure are in GB Sterling and are inclusive of VAT.

All Tissino products are available in Virtual Worlds and Easyquote.

We aim to make ordering a simple, pleasant experience and our trained staff are on hand to assist in any capacity that may be required, please contact our team on 0345 582 8000

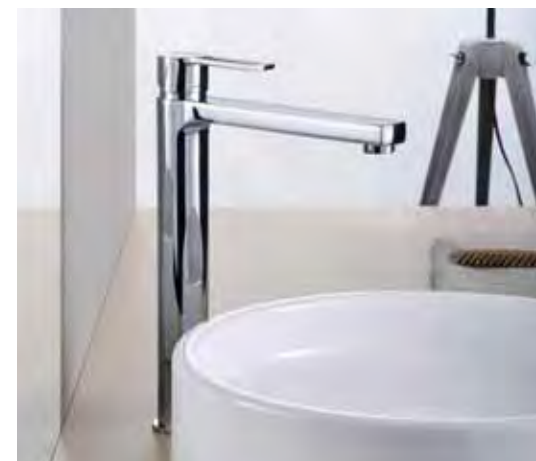

Resources

Please speak to our sales team to arrange sample swatches, demonstrations, technical drawings, etc. Plenty of resource material is available to you.

Returns Policy

We must be notified of damages and missing items within 3 days of delivery. Restocking charges may apply. Full terms and conditions are available on request, please email clientcare@tissino.co.uk

For further information on resources, samples, specifications and drawings, please email our sales team on sales@tissino.co.uk

Delivery

Standard delivery to UK Mainland is free of charge and there is no minimum carriage paid order value. This includes site deliveries.

Orders with a specified delivery time and deliveries to a non-UK Mainland address may be subject to a surcharge.

Guarantee

10 Year Guarantee is not applicable to shower seals, cartridges, toilet seats, electrical parts and special colour finishes.

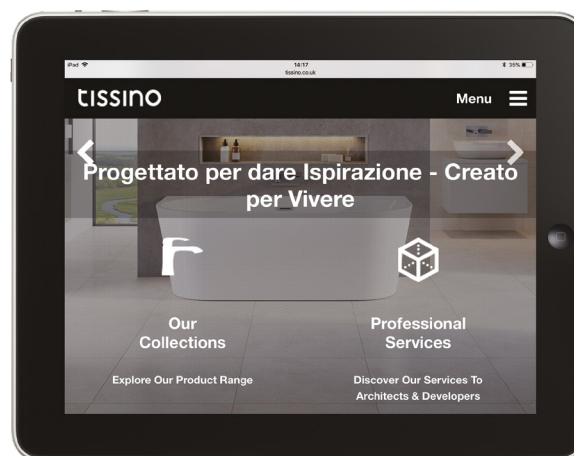

Please contact our sales team on 0345 582 8000 to discuss options

TECHNICAL/TECNICO

I colori e gli effetti riportati sul presente catalogo sono indicativi per i limiti consentiti dalla stampa; per questo non possono essere vincolanti e costituire base per eventuali contestazioni.

The colours and the effects in this catalogue are indicative for the limits allowed by the printing process; for this reason, they cannot be binding and be the base for possible claims.

All prices shown in this brochure are RRP (inc VAT)
