BB nuance

welcome to Bushboard

We have been developing kitchen and bathroom surfaces in the UK since 1935 and the idea that everyone deserves great design, whatever their budget, underpins our entire approach to surfacing.

When you buy a Bushboard product you are buying into our ethos of exceptional quality, exquisite design and excellent value and of course, first class customer care. We are proud that our surfaces are made in the UK.

We want to ensure you get the very best from your new wall panels and vanity surfaces - our products carry a 15 year guarantee so you can be sure your Nuance® bathroom wall panels and vanity surfaces will look sensational for years to come.

BB get the look

Here we have used our stunning Calacatta Statuario wall panels all around the bathroom to create a luxurious high-end look.

Calacatta Statuario wall panelling in glaze texture.

Nuance is different

Our brilliant, patented wall panelling system is transforming bathroom design. It is an ideal alternative to tiles and is becoming the fastest growing trend in today's bathrooms according to our expanding base of specialist bathroom showrooms across the UK.

The unique selling points of this product mean that it is ideal for refurbishments as well as new installations.

Over the following pages you will see why Nuance is so different.

It's what bathrooms have been waiting for!

Pictured right: Wildwood wall panelling in grain texture.

log on to www.bushboard.co.uk/design-studio
and start designing!

100% waterproof

With Nuance you can be 100% confident that our panels are 100% waterproof - that's because our panels are uniquely manufactured using a synthetic, homogenous core that is 100% impervious to water.

Add to that the high-performance laminate surface, plus installation with our waterproof adhesive and sealant, BB Complete, and you have a shower area that is guaranteed for 15 years to cope with thousands of hours of showering.

Pictured right: Soft Mazzarino wall panelling in quarry texture.

100% waterproof: Core is totally impervious to water and will not swell or degrade

High design & quality: Surface offers exceptional performance and easy maintenance

no trims required

Nuance is unique for being a patented, trim-free system.

The large format panels have a postformed outer edge that means no trims are required for finishing.

The tongue and groove panels can be jointed with our bespoke adhesive. This gives you joints which are 100% watertight and virtually invisible to the eye.

Without the need for metal trims to detract from the look you have the flexibility to create wonderful wetrooms, stunning showers, fantastic family bathrooms and a variety of vanity styles.

Take time to appreciate the seamless expanse of uninterrupted design.

Pictured detail: Platinum Travertine in riven texture.

The watertight panel join is virtually invisible to the eye

No trim required with the smart postformed edge

Perfect for bath panels thanks to the smart postformed edge

fast installation

Our panels can be tailored and installed in a matter of hours. In fact, in our time trials, Nuance was up to six times faster to install than traditional tiles. So, if you're planning a bathroom project, you can cut down on the disruption and time taken compared to tiling.

This makes Nuance ideal for refurbishments because it can be installed straight over almost any surface, including tiles, for super fast room turnaround.

It's the perfect material for today's bathroom interiors.

designer

BB nuance

welcome to Nuance designer

With the introduction of the Nuance designer collection, it's never been easier to express your personal style and create a truly bespoke look in your bathroom.

Nuance designer draws on the art and science of enhancing interior spaces to achieve a healthier and more aesthetically pleasing environment.

The collection offers edgy washed bricks, warm timbers and dramatic, architectural fossil stone designs.

Bushboard are arming you with all the tools you need to become your own interior designer!

Pictured left: Washed Capital Brick wall panelling in pietra texture.

BB get the look

We have created a contemporary industrial feel in this striking bathroom setting by combining two of the new designs from the Nuance designer collection.

We have teamed the raw beauty of Original Capital Brick wall panels with New England wall panels, our new rustic washed wood decor.

Original Capital Brick wall panelling in pietra texture and New England wall panelling in timber texture.

stunning designs

With Nuance you can personalise your bathroom with an array of designs, colours and surface textures. Contrast warm woodgrains with natural stones for a fashionable urban feel. Or go for glamour by combining a luxury-veined marble with a subtle neutral.

Our designs are printed in life-like proportion, mirroring the natural beauty of real stone, marble, granite and wood.

Mix it up and create something really special.

Pictured right: Herringbone Natural wall panelling in shell texture.

Herringbone Whitewash shell

Herringbone Natural shell

seamless style

Nuance lets you pull the whole design scheme together.

For a fashionably streamlined look, why not extend the panels beyond the shower area? The products can flow seamlessly throughout the bathroom in whatever way you choose, inconspicuously running around internal and external corners.

Why not add a matching or contrasting panel behind the basin to finish off the look and give you a smart, elegant and practical surface.

Let the surface do the talking.

acrylic

BB nuance

welcome to Nuance acrylic

Whatever look you aspire to achieve for your bathroom makeover, we can help you realise it.

Our new acrylic range is the perfect balance of style and convenience, available in seven beautiful designs.

Featuring a trio of new-to-the-market marble designs, bold, bright, geometric prints which have been heavily influenced by moroccan styling and some calm, subtle neutrals.

Our stunning acrylic panels are 4mm thick and offer a sleek, reflective, gloss finish reminiscent of sheet glass.

We are sure you will find something you love!

Pictured left: Linear Arctic Marble acrylic gloss wall panelling.

a dramatic statement

Our fabulous, brand new marble slab design truly reflects the natural beauty of authentic marble.

When placed side by side, like the pages of an open book, the panels are mirror images. The contrasting veining matches to create one stunning, unbroken pattern. This offers a strong, large-scale symmetrical look which creates maximum impact.

A custom, sophisticated look without the high-end price tag.

Book-matching looks equally amazing in both contemporary and traditional settings and the timeless elegance will transition through the years seamlessly.

Pictured right: Cararra Marble Slab acrylic gloss wall panelling fitted in a book-matched configuration.

quadruple options

Our brand new Carrara Marble slab design is produced as a left and right panel. This means that it can be fitted in four eye-catching configurations, giving you complete freedom of design.

Two panels - Four ways to install for book-matched design.

sleek styling

A fresh look.

The brand new acrylic additions to the collection really bring a sense of style and vivid extravagance.

Vibrant, geometric prints inspired by traditional Moroccan motifs are on-trend and can be used to create a look that is both warm and welcoming, yet luxurious and exotic.

The collection also offers a subtle vintage inspired version for those who enjoy a more low-key style.

Go on be bold!

Pictured right: Casablanca Classic acrylic gloss wall panelling.

watertight solutions

There is a wide range of shower trays available in many sizes and shapes to fit with your chosen shower configuration, from designer low profile trays to level access shower trays for a wetroom.

You can rest assured that for whatever style you choose, Nuance wall panels are the perfect fit.

More and more people are planning their next bathroom to be future-proof with level access wetrooms for ease of use as we grow older.

Easy maintenance also goes with easy mobility. Nuance panels are ideal for panelling out spacious wetrooms. They are fitted, watertight, floor to ceiling and can extend outside of the shower area for enhanced practicality. With no trims and inconspicuous joints, the large decorative surfaces are quick and easy to clean.

With Nuance there is no age limit on style.

nuance + BB Complete

100% waterproof and even the adhesive is guaranteed!

And it gets even better... because silicone has a life span, we've developed our own specialist sealant.

We know the importance of the final installation, that's why we've developed BB Complete, our bespoke adhesive and sealant which should be used by your installer when your Nuance panels are fitted.

BB Complete is available in two versions.

Our unique installation adhesive is technically superior and must be used to bond the panels to the wall. As this is not seen it is a cost effective neutral colour. It's flexible, super strong and will not shrink or break down like silicone. It's so good we insist that it's used to validate your guarantee.

Our 15 year guarantee is built on solid foundations.

BB Complete is also available as a sealant in a range of colour options. It offers superb performance and allows your installer to join, bond and seal your panels.

Always use BB Complete and you'll have the peace of mind of our 15 year guarantee.

= 15 year guarantee

joining | sealing | bonding | finishing

- 290ml cartridges available in 12 colourways
- Advanced formulation for superb results
- Excellent grab adhesion, gap filling properties and no shrinkage
- Easy and flexible to work with for bonding, sealing and finishing
- Easy to maintain and clean
- Colour options to suit all designs
- Cartridges suit any heavy-duty mastic gun
- 290ml = approximately 20 linear metres at a 5mm bead
- Use neutral BB Complete quick grab bonding adhesive to fix panels. 1 x 290ml tube for a 2420 x 1200mm panel

vanity solutions

Nuance is all about great design with a flexible and integrated approach for all bathroom layouts.

Whether your design calls for wall hung, semi-recessed basins or the latest sit-on basins, Nuance offers co-ordinated or matching surfaces in laminate or new ultra-slim, colour core compact laminate.

Pictured detail: A Nuance panel can be turned horizontally and fixed to hide a cistern or pipes giving a perfect, waterproof finish behind bathroom furniture, vanity units and WCs.

Alabaster wall panelling in quarry texture.

compact vanity surface

Innovative and brand new, our compact laminate vanity surfaces offer a 12mm ultra-slim design which can be shaped on-site, thanks to it's ease of cut.

With a double-sided decorative surface, sharp square edge profile and matched colour core you are assured stand-out style.

Clean cut and smart.

Size available:
3000 x 360mm

Available in 4 co-ordinating designs, see the matrix on page 46.

Urban Stone compact laminate vanity surface in ultramatt texture also used as an upstand available from the Evolve worksurface collection.

laminated vanity surface

A laminated vanity surface gives a smart and integrated design look.

Sizes available:

3000 x 360mm for semi-recess basins

3000 x 600mm for sit-on or inset basins

Available in 20 matching and co-ordinating designs, see the matrix on page 46.

Natural Greystone laminated vanity surface in roche texture teamed with Platinum Travertine wall panelling in riven texture.

flexible panel sizes

Our range of Nuance panels gives real flexibility to shape the perfect bathroom. The postformed panels and the standard tongue and groove panels can be linked together to create walk-in wetrooms and work with any shower enclosure. And you can finish a wall wherever you please with the versatile 160mm finishing panel. Here we show you what's on offer.

Postformed panels

The most versatile of our panels for shower enclosures and bath panels.

Features one finished radius edge and one tongue to link to T&G panels.

Size 2420 x 1200mm one finished radius edge and one tongue.

Available in 33 ex-stock designs.

Tongue and groove panels

Our T&G panels in 1200mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 1200mm tongue and groove.

Available in 33 ex-stock designs.

Our T&G panels in 600mm widths offer the flexibility for less waste and less cost.

Size 2420 x 600mm tongue and groove.

Available in 29 ex-stock designs.

Feature panels

With two pre-finished edges, the ideal panel to finish behind WCs and wash basins. It's especially good for cloakrooms and en-suites.

Size 2420 x 580mm with two finished radius edges.

Available in 29 ex-stock designs.

160mm Finishing panels

This panel allows you to finish a run of T&G panels vertically with a neat postformed edge detail, instead of using trims. It can also be used as an upstand.

Size 2420 x 160mm one finished radius edge and one tongue.

Available in 29 ex-stock designs.

Nuance acrylic panels are available in one size only. They can be butt jointed and sealed together with our BB Complete sealant to create your perfect, bespoke design.

Acrylic panels

Size 2440 x 1200mm supplied pre-finished.

Available in 7 ex-stock designs.

Working with designs and joints

Patterns are not designed to align across joints. Whilst this is normal for natural stones and woodgrains, it will be more obvious on designer decors such as the Capital brick, tile and Herringbone designs. These can be aligned horizontally in terms of grout and mortar lines running across the joint. However individual brick and tile patterns will not continue over the joint. It is possible to design around this by using panels individually as accents. These designs do work perfectly well in corners where aligning horizontally creates a natural effect.

Carrara Marble Slab acrylic is the exception; this decor is specifically designed to be installed to create a book-matched effect where the mirrored design between the A and B panels will align across joints.

Panel trims - Nuance & Nuance Designer

All Nuance panels are waterproof so do not require trims. However, if you have a preference to use them they are available in bright polish, white and black.

faq's

Do I need to use metal trims?

Nuance is unique for being a trim-free system. No trims are required for finishing.

Can I sit the Nuance panel directly onto a shower tray or bath edge?

Yes. Nuance panels must be fitted onto a shower tray or bath edge and a 3-5mm gap left, which should be filled with a bead of BB Complete coloured sealant.

How much adhesive and sealant is required for one panel?

1 x 290ml tube of adhesive is required to bond a 1200mm panel to the wall. 1 x 290ml tube of sealant contains 20 linear metres at a 5mm bead.

Can I hang wall mounted items to Nuance panels?

Yes, wall mounted items can be hung on to a Nuance panel as long as the fixings go through the panel into a solid wall behind.

Do I have to use BB Complete and how should it be used?

Yes, you have to use BB Complete adhesive and sealant in order to validate your 15 year guarantee. BB Nuance is our neutral quick grab adhesive used for bonding panels to the wall. BB Complete coloured sealant should be used for all joints.

Panel trims - Nuance acrylic

Available in bright polish and white.

Types: internal, external and end cap.

Vanity surfaces

Laminate vanity surfaces come with a matching 1500mm edge strip. Compact vanity surfaces have a co-ordinated colour core so do not require edging. Simply sand and finish on-site.

BB Complete Adhesive

To validate your 15 year guarantee BB Complete Adhesive must be used.

Nuance must be bonded to the wall with BB Complete panel adhesive and as this is not seen it is a cost effective neutral colour. Designed to fit a heavy-duty mastic gun, one cartridge installs one 1200mm panel.

BB Complete is also available as a sealant in 12 colour options to co-ordinate with the full range of Nuance designs. See the range matrix opposite for our suggested colour for your chosen design.

Can I use a Nuance panel as a bath panel so it will match the rest of the bathroom?

Yes, visit www.bushboard.co.uk and watch our installation video for advice on how to cut a 1200mm postformed panel for this purpose. Acrylic panels can also be used.

Can I fit the Nuance panels to plasterboard?

Yes, as long as the plasterboard is secure, flat, smooth and clean.

Can I apply Nuance panels directly to tiles?

Yes, as long as the tiles are clean, smooth and solid and all existing sealant is removed. The tiles should be scarified with abrasive paper.

Can you butt joint panels together?

Yes, ensure that BB Complete sealant is used to form watertight joints.

How do I clean Nuance panels?

All you need to do is wipe them down with a moist cloth and your favourite mild detergent.

What if my ceiling is taller than the height of the panel?

The maximum height of the panel is 2420mm and 2440mm for acrylic. If you require taller than this you can butt joint panels, to the top, to achieve the desired height.

here to help

Choosing a new bathroom is an exciting time and we have all the tools you need.

Start online with our Nuance planner, get creative with our Design Studio and then order your samples and find a retailer. With Nuance it's so easy.

Make it real
