Cindy Crawford

Get to know the star of our new campaign

"I love healthy food but I couldn't live without chocolate."

Cindy Crawfl

When she enters the studio, everyone is amazed by the warmth and confidence in every single one of her gestures. She's smiley and very professional.

Dressed meticulously in black and wearing a leather jacket, it's difficult to imagine that this down-to-earth woman, who shakes hands with every single person on the team, has walked down the most prestigious catwalks and posed for the top designers of all time. This American supermodel's secret to success is simple, and has a lot in common with Cosentino's core values: a solid family relationship, passion for her work and humility. It's not difficult to imagine why she's the star of the Tops on Top campaign.

There is nothing that will hide away the natural light. Big windows add warmth to the atmosphere.

silestone® Benefits

Silestone[®] is made out of Natural Quartz created to provide color and texture for bath and kitchen surfaces. Thanks to its physical and chemical properties, a result of years of investigation, it guarantees maximum safety and hygiene.

Resistance to Stains

Silestone[®] is a non-porous surface which is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, make-up and many other daily-use products.

Resistant to Scratching

Quartz is one of the hardest minerals that exists. This makes our products very durable, with a high level of resistance to external damage.

Resistant to Impacts

Silestone® high level of resistance to impacts allows very hard objects (pots, trays, etc.) to be handled with total ease.

FEAUTURING New Colors The New Eternal Collection delivers an interesting addition following the current trend of marble and elegant neutral spaces. Two new proposals that are born with the aim of giving versatility, luminosity to both cold and warm spaces. Discover Eternal D'Or and Bella. Elegant and vibrant colors. Natural look and feel. High resistance and durability. Endless veins.

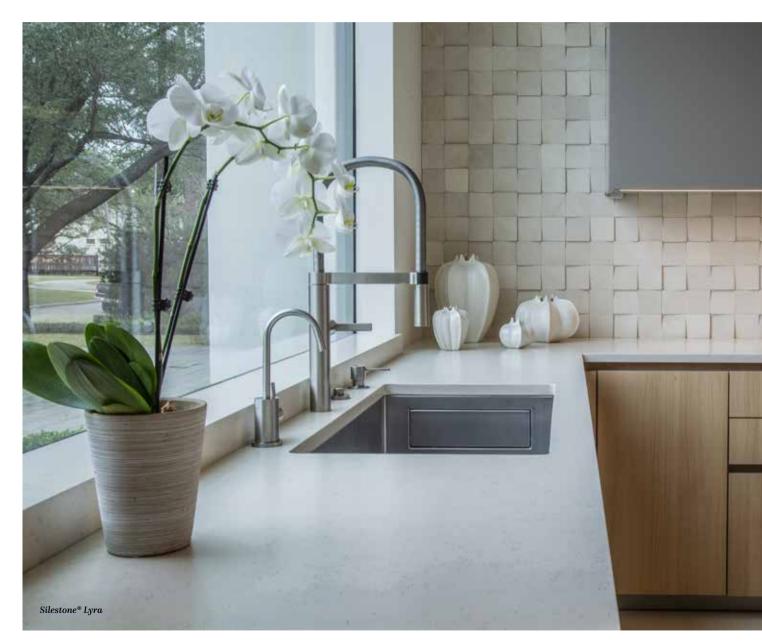

SILESTONE®

Applications

Thanks to its remarkable characteristics, Silestone is the ideal surface choice for unlimited applications.

Kitchen Countertops

Silestone is the only quartz surface with a 25 year transferable warranty. It also offers a wide range of colors and textures to transform your kitchen into a unique space. Silestone can be used in a variety of applications, including countertops, flooring, cladding and backsplashes or even furniture.

"The Kitchen is the heart of the Home"

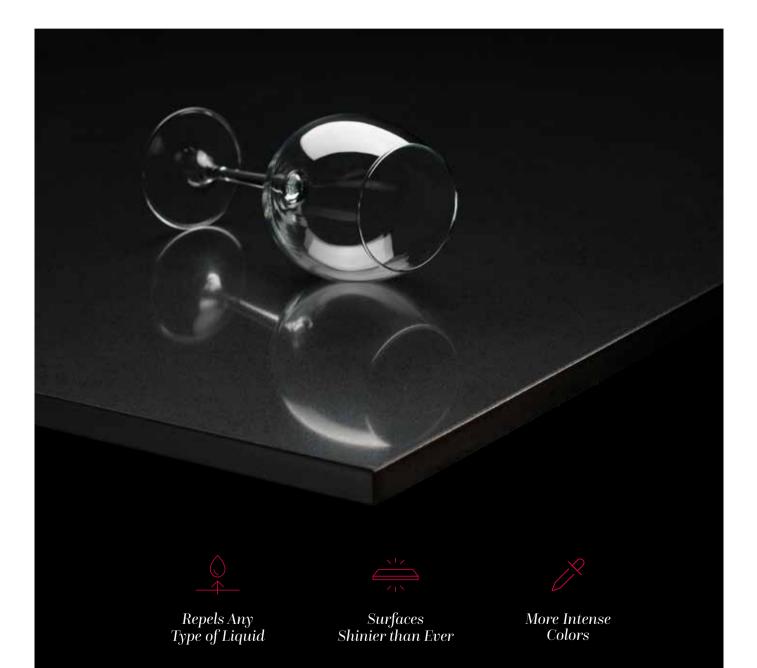

*Check availability on Silestone [®] colors with N-Boost

N-Boost Technology by Silestone®

The hydro- repellent properties of N-BOOST prevents the clinging of common liquids in kitchen and bathroom spaces. This is specially useful when liquids remain on the surface for hours: with N-BOOST preventing them from binding to the surfaces. Thanks to N-BOOST, cleaning is much simpler.

Ideas for Your Kitchen

Are you thinking of redecorating your kitchen or creating a more original design? If so, don't miss our innovative ideas for decorating with style and a unique personality.

Choose slate paint

Thanks to this type of paint, you can easily redesign your kitchen, using it on walls, furniture and appliances alike. Go for traditional colors like green and black or choose innovative options like yellow or lime.

Add decorative vinyl

It will allow you to give new life to your kitchen and masterfully update its look. You can use it to redecorate the front of wardrobes and drawers or to change the look of your appliances.

A gorgeous backsplash

Create the quintessential work area. Choose materials which allow easy cleaning and maintenance. You can choose the same color to obtain a visually unified kitchen or something totally different to create interesting contrasts.

Choose black for your kitchen

If you like contemporary designs and your kitchen is especially light, choose the color black to create a modern, sophisticated look. Bright white contrasts are equally impactful.

Out-of-place objects

Make your kitchen transmit originality and personality by introducing elements which aren't a part of it. Some examples could be a large painting leaning against the wall or a sculpture.

Mix different styles

Design a unique kitchen by mixing Nordic style and Rustic style: contemporary furniture in a very industrial style space, with appliances on view, brick walls and cement floors.

Walls with personality

Large format cladding for elegant and sophisticated wall design.

In Black and white

Images, photographs and illustrations that add contrast.
